

Burj Khalifa

The first steel skyscrapers were in Chicago and New York City.

The Empire State Building in New York was the first building to have more than 100 floors.

The tallest skyscraper has 163 floors. It is called the Burj Khalifa and is in **Dubai**.

DID YOU KNOW?

The Burj Khalifa is half a mile (.8 kilometers) tall. How tall is that? That's as tall as 725 second graders standing on top of one another. That's tall!
